

Electronic Pressure Independent Valve, 2-way,  
Internal thread, (EPIV)

- Nominal voltage AC/DC 24 V
- Control communicative
- Communication via BACnet MS/TP, Modbus RTU, Belimo-MP-Bus or conventional control
- Conversion of active sensor signals and switching contacts

5-year warranty

## Technical data

| O-ring              |                              | EPDM   |
| Ball                |                              | stainless steel  |

**Safety notes**

- This device has been designed for use in stationary heating, ventilation and air-conditioning systems and must not be used outside the specified field of application, especially in aircraft or in any other airborne means of transport.
- Outdoor application: only possible in case that no (sea) water, snow, ice, insolation or aggressive gases interfere directly with the actuator and that is ensured that the ambient conditions remain at any time within the thresholds according to the data sheet.
- Only authorized specialists may carry out installation. All applicable legal or institutional installation regulations must be complied during installation.
- The device contains electrical and electronic components and must not be disposed of as household refuse. All locally valid regulations and requirements must be observed.
- WARNING: This product can expose you to lead which is known to the State of California to cause cancer and reproductive harm. For more information go to [www.p65warnings.ca.gov](http://www.p65warnings.ca.gov)

**Product features**

**Flow measurement** \*All flow tolerances are at 68°F [20°C] & water.

**Accessories**

| <b>Electrical accessories</b> | <b>Description</b>  | <b>Type</b>        |
|-------------------------------|---|--------------------|
|                               | Replacement flow sensor for EPIV, Ultrasonic 2" 50 GPM 100  | M2450-EP-100       |
|                               | Service Tool, with ZIP-USB function, for programmable and communicative Belimo actuators, VAV controller and HVAC performance devices | ZTH US             |
| <b>Mechanical accessories</b> | <b>Description</b>  | <b>Type</b>        |
|                               | Weather shield for Belimo Energy Valve™, 25...50, Ultrasonic models only  | ZS-EPIV-EV-50-SCNF |
|                               | Valve neck extension for ball valve DN 15...50  | ZR-EXT-01          |

### Electrical installation

BACnet MS/TP / Modbus RTU

**Cable colors:**

- 1= black
  - 2 = red
  - 3 = white
  - 5 = orange
  - 6 = pink
  - 7 = grey
- BACnet / Modbus signal assignment:  
 C1 = D- = A  
 C2 = D+ = B

Connection with active sensor, e.g. 0...10 V @ 0...50°C

Possible voltage range:  
 0...32 V (resolution 30 mV)

Connection with switching contact, e.g. Δp monitor

Requirements for switching contact:  
 The switching contact must be able to accurately switch a current of 16 mA @ 24 V.

Modbus RTU / BACnet MS/TP with analogue setpoint (hybrid mode)

Operation on the MP-Bus
