

Multi-Function Technology®

Your swiss army knife for HVAC.

Features and benefits only
Belimo's MFT can provide.

Multi-Function Technology, only from Belimo, allows you to create custom solutions for individual applications, using the same programmable actuator. Whether you need a particular control or feedback signal, or need to change running speeds, MFT is the answer. It comes standard as a 2 to 10 VDC proportional control but can be reprogrammed on-site. You can modify voltage control, time proportional control, floating point, on/off and feedback signals too. In addition, MFT makes it easy to set parameters for running time, mechanical working range, address, status and diagnostics. Think of it as your all-in-one, swiss army knife for HVAC.

Feature	Benefit
Configurable control and feedback signal type	Reduced number of actuators required in stock
Variable runtime	Flexibility to tune to each application
Flexible angle of rotation setting	Customized to fit application - to drive actuator less than 100% open/closed
Scalable operating range	Optimized control resolution for every operating range
Min, Mid, Max override function	Additional system control beyond modulation
Stored alarm information	Ease troubleshooting
Data logging capability	Gather system data for optimization or diagnostics
