FOR IMMEDIATE RELEASE
November 1, 2016

NEW ADVANCED BUTTERFLY VALVE TECHNOLOGY FOR HVAC APPLICATIONS

Danbury, CT, October 1, 2016 – Belimo Americas announces the release of a technologically advanced butterfly valve designed specifically for the Heating, Ventilation, and Air Conditioning industry. The newly designed butterfly valve and actuator assembly is the most intelligent, energy efficient, and reliable high flow solution in the HVAC market. With a focus on ease of installation, application flexibility, and longevity, this series sets new performance standards in the HVAC market.

- Saves energy with up to 80% less power consumption than currently available solutions.
- Zero leakage and improves system performance with self-adjusting design
- Application flexibly with a fail-safe function and universal power supply input from 24 to 240 VAC/DC
- Easy troubleshooting with its unique position indicator viewable from long distances and any angle
- Simplified setup, diagnostics and superior application data access with BACnet and Near Field Communication built-in

“The advanced butterfly valve offering is truly innovative”, states Joseph Carcare, Product Manager. “Our customers will now have access to a fail-safe option, universal power supply, and close-off for the life of the valve – a lot of industry firsts!”

###

Belimo is a world leader in the design and manufacture of damper actuators and control valves used in commercial HVAC systems. Known for its direct-coupled actuator and innovations in pressure independent control valve technology, Belimo has solutions to maintain an efficient building environment. For over 40 years, Belimo has provided innovations in Comfort, Energy Efficiency and Safety Solutions to customers throughout the world, all of which are backed by Belimo’s unsurpassed 5-year warranty. For more information, contact Belimo at 1-800-543-9038 or visit the website at www.belimo.us.
