

EXT-KA-SE200P

Setting up WiFi network with configuration app

Setting up WiFi network with configuration app on EXT-KA-SE200P:

1. Install configuration app on smartphone. Please contact your Local Belimo Sales representative for app file.
2. Turn on the device (it will automatically enter configuration mode for 15 mins). The STATUS light will flash yellow during this time. If your device is not in configuration mode, please turn the device off and back on again.
3. Open the “network settings” on your smartphone and look for sensor’s WiFi network. Connect to that network.
4. On the configuration app, please enter the WiFi details to the applicable fields on configuration app:
 - a. SSID
 - b. Security type
 - c. Password
 - d. Network Type
 - e. IP (manual mode only)
 - f. Subnet mask (manual mode only)
 - g. Gateway (manual mode only)
5. Scroll down to the bottom of the page and tap Configure Device to upload the settings to your sensor. WiFi Configuration is completed.

Setting up Cloud account

Setting up Cloud account:

1. Create Cloud Account on Belimo Indoor Air Quality (IAQ) Portal
 - a. Go to <https://belimo.kaiterra.com/login>
 - b. Click "Sign up here" at the bottom of the page.
 - c. Fill in your email address and create a strong password.
 - d. Confirm password.
 - e. Click "Register."
2. Activate Cloud Account:
 - a. Check your email inbox for an account activation link.
 - b. Click the link to activate your account.

 A screenshot of a web browser showing the Belimo IAQ Portal login page. The page has a light blue header with the Belimo logo. Below it is a white login form with the heading "Welcome back". It has fields for "Email" (containing "jane.doe@example.com") and "Password" (containing several dots). There is a "Remember me" checkbox, a "Login" button, and links for "Login via SSO" and "Forgot password?". At the bottom left, there is a link "Don't have an account? [Sign up here](#)". The "Sign up here" link is highlighted with a red box.

 A screenshot of a web browser showing the Belimo IAQ Portal sign-up page. The page has a light blue header with the Belimo logo. Below it is a white sign-up form with the heading "Create an account". It has fields for "Email" (containing "jane.doe@example.com"), "Password" (containing several dots), and "Confirm your password" (containing several dots). There is a "Please confirm you are not a robot" field with a CAPTCHA containing the numbers "329415", a "Register" button, and a small text at the bottom about terms and privacy.

Setting up Cloud account

Adding sensor to Cloud account

1. Log In to Cloud Account:

- Return to <https://belimo.kaiterra.com/login>.
- Enter your email address and password.
- Click "Login."

2. Add EXT-KA-SE200P to Cloud account:

- Click "Add device" in the top right corner of the page.
- Device Name: Create a name for your sensor.
- Device UDID: Connect your device to Configuration app. UDID is located in the "Device Details" tab.
- Click "Add Device." The cloud setup is completed.
