

EU RoHS Confirmation Letter

Hinwil, January 2023

Dear Valued Customer,

The **EU Directive 2011/65/EU** (known as RoHS 2) regulates from 2. January 2013 the use of mercury, cadmium, lead, chromium VI, PBB and PBDE in electrical and electronic equipment.

The **EU Directive (EU) 2015/863** (known as RoHS 3) amends the existing RoHS 2 directive by regulating the four phthalates DEHP, BBP, DBP and DIPB from 22. July 2019.

Actuators, sensors and meters showing the CE mark, valves and combinations of these products sold by Belimo fulfill the limits set in the above-mentioned Directives. We want to point out that several products with respect to the concentration of lead in metal alloys and lead in electronic components do make use of the exemptions 6(a), 6(b), 6(c), 7(a) 7(c)-I and 34 given in annex III of the directive 2011/65/EU.
