## **The "Air Handling Units" Eurovent Product Group Meeting at Belimo in Hinwil**

One year after formally joining Eurovent as a corresponding member, Belimo had the pleasure of hosting the first "Air Handling Units" Eurovent Product Group Meeting (PG-AHU) at the company's headquarters in Hinwil (Switzerland) on November 7, 2023. More than 50 participants attended the event, which was followed by a tour of Belimo's production facilities.

Eurovent is the European industrial association for room climate (heating, ventilation and cooling), process cooling and food cold chain technologies. Its members from all over Europe represent more than 1,000 companies, most of them small and medium-sized manufacturers.

The "Air Handling Units" Eurovent Product Group Meeting takes place twice a year and invites representatives from leading manufacturers in the field of ventilation. The aims are to exchange views on European and national legislation initiatives and on the development of standards related to issues such as energy efficiency, healthy indoor air and sustainability, as well as to promote and strengthen the AHU sector in general.

At the same time, the "Energy Recovery Components" Eurovent Product Meeting will take place in Hinwil.
