This feature allows thermal energy meters and energy valves to be operated on the M-Bus and in parallel on BACnet or Modbus.</p> <p>Bugfix: Behaviour where equal-percentage characteristic curve did not reach V'_{max}.</p> <p>Behaviour where device rebooted when DHCP client was lost.</p> <p>Behaviour where IP settings could get lost.</p> <p>Behaviour where accumulated energy on performance report could have been incorrect.</p>
EV4.0.0	0	04.01.0000	V1.0.10	EV4	21.10.2021	Released without restrictions.

All inclusive.

Belimo as a global market leader develops innovative solutions for the controlling of heating, ventilation and air-conditioning systems. Damper actuators, control valves, sensors and meters represent our core business.

Always focusing on customer value, we deliver more than only products. We offer you the complete product range for the regulation and control of HVAC systems from a single source. At the same time, we rely on tested Swiss quality with a five-year warranty. Our worldwide representatives in over 80 countries guarantee short delivery times and comprehensive support through the entire product life. Belimo does indeed include everything.

The "small" Belimo devices have a big impact on comfort, energy efficiency, safety, installation and maintenance.

In short: Small devices, big impact.

5-year warranty

On site around the globe

Complete product range

Tested quality

Short delivery times

Comprehensive support
