|                           | Seat                     | EPDM  |
|                           | Pipe connection          | for use with ANSI class 125/150 flanges         |
|                           | Bearing                  | RPTFE   |
|                           | Disc                     | Aluminum Bronze                                 |
| <b>Suitable actuators</b> | Non-Spring               | DRB(X)<br>DRCB(X) N4                            |
|                           | Electrical fail-safe     | DKRB(X)   |

## Safety notes

- The valve has to be exercised at least once a week, so that the quality of potable water as well as the functionality are not affected.

**Product features**
**Flow/Mounting details**

**Mode of operation** The valve is adjusted by a rotary actuator. The rotary actuator is connected by an on/off signal. Open the ball valve counterclockwise and close it clockwise.

**Dimensions**
**DN**

150

**Weight**

26 lb [11.8 kg]

Valve with DR/DK Actuator

| A           | B         | C           | D           | E          | F          | Number of Bolt Holes |
|-------------|-----------|-------------|-------------|------------|------------|----------------------|
| 11.3" [286] | 2.3" [58] | 22.1" [562] | 18.0" [457] | 5.4" [137] | 5.4" [137] | 8                    |

Valve with DR N4/DK N4 Actuator

| A           | B         | C           | D           | E          | F          | Number of Bolt Holes |

|----------------------------|------------------------------------|------------|
|                            | Heater, with adjustable thermostat | ACT_PACK_H |

## Electrical installation

### ✂ INSTALLATION NOTES

- ⚠ Provide overload protection and disconnect as required.
- ⚠ For triac sink the Common connection from the actuator must be connected to the Hot connection of the controller. Position feedback cannot be used with a triac sink controller; the actuator internal common reference is not compatible.
- ⚠ Actuators may be connected in parallel if not mechanically linked. Power consumption and input impedance must be observed.
- ⚠ IN4004 or IN4007 diode. (IN4007 supplied, Belimo part number 40155).
- ⚠ Actuators are provided with a numbered screw terminal strip instead of a cable.
- ◆ Meets cULus requirements without the need of an electrical ground connection.
- ⚠ **Warning! Live electrical components!**  
During installation, testing, servicing and troubleshooting of this product, it may be necessary to work with live electrical components. Have a qualified licensed electrician or other individual who has been properly trained in handling live electrical components perform these tasks. Failure to follow all electrical safety precautions when exposed to live electrical components could result in death or serious injury.
