

Stem heater for LV.., NV.., SV.. actuator

- for temperatures down to -10° C

Picture may differ from product

Technical data

Electrical data	Nominal voltage	AC/DC 24 V
	Nominal voltage frequency	50/60 Hz
	Power consumption heating	30 W
	Connection supply	Cable 1 m
	Electrical connection	Cable
Functional data	Fluid temperature	-10...20°C [14...68°F]
Safety data	Degree of protection IEC/EN	IP54
	Certification IEC/EN	IEC/EN 60529
	Ambient temperature	-10...40°C [14...104°F]
	Servicing	maintenance-free
Materials	Used materials	Silicone
		Galvanised steel

Safety notes

- This device has been designed for use in stationary heating, ventilation and air-conditioning systems and must not be used outside the specified field of application, especially in aircraft or in any other airborne means of transport.
- Only authorised specialists may carry out installation. All applicable legal or institutional installation regulations must be complied with during installation.
- The device contains electrical and electronic components and must not be disposed of as household refuse. All locally valid regulations and requirements must be observed.
