Agency Listing cULus acc. to UL60730-1A/-2-14 E60730-1:02, CE acc. to 2014/36 2014/35/EU	
Quality Standard ISO 9001	
Ambient humidity Max. 100% RH	
Ambient temperature -22122°F [-3050°C]	
Servicing maintenance-free	
Weight Weight 13 lb [6.0 kg]	
Materials Housing material Die cast aluminium and plastic	casing

#### Safety notes

For maintenance work, the correct valve position must be set via the control signal.
 Additionally, the actuator must be disconnected from the power source. The hand crank and manual override shall not be used as a safety measure to maintain the valve position.

#### **Product features**

#### **Application**

PR Series valve actuators are designed with an integrated linkage and visual position indicators. For outdoor applications, the installed valve must be mounted with the actuator at or above horizontal. For indoor applications the actuator can be in any location including directly under the valve.

#### Operation

The PR series actuator provides 90° of rotation and a visual indicator shows the position of the valve. The PR Series actuator uses a low power consumption brushless DC motor and is electronically protected against overload. A universal power supply is furnished to connect supply voltage in the range of AC 24...240 V and DC 24...125 V. Included is a smart heater with thermostat to eliminate condensation. Two auxiliary switches are provided; one set at 10° open and the other is field adjustable. Running time is field adjustable from 30...120 seconds by using the Near Field Communication (NFC) app and a smart phone.

†Use 60°C/75°C copper wire size range 12...28 AWG, stranded or solid. Use flexible metal conduit. Push the listed conduit fitting device over the actuator's cable to butt against the enclosure. Screw in conduit connector. Jacket the actuators input wiring with listed flexible conduit. Properly terminate the conduit in a suitable junction box. Rated impulse Voltage 4000 V. Type of action 1. Control pollution degree 3.

#### **Accessories**

Mechanical accessories	Description	Туре
	Hand crank for PR, PKR, PM	ZG-HND PR
	RetroFIT+ valve bracket	UFLKP014
	For Belimo Butterfly Valve with PR and PKR Series Actuators	

#### **Electrical installation**

Meets cULus requirements without the need of an electrical ground connection.

(UP) Universal Power Supply (UP) models can be supplied with AC 24...240 V, or DC 24...125 V.

A Disconnect power.

Yerovide overload protection and disconnect as required.

Two built-in auxiliary switches (2x SPDT), for end position indication, interlock control, fan startup, etc.

 $_{\!\scriptscriptstyle \Delta}$  Actuators may be controlled in parallel. Current draw and input impedance must be observed.

#### Warning! Live electrical components!

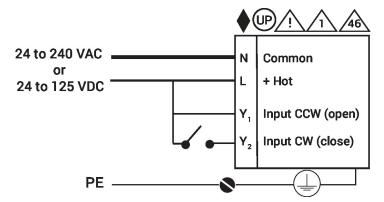

During installation, testing, servicing and troubleshooting of this product, it may be necessary to work with live electrical components. Have a qualified licensed electrician or other individual who has been properly trained in handling live electrical components perform these tasks. Failure to follow all electrical safety precautions when exposed to live electrical components could result in death or serious injury.
