

5-year warranty

Technical data

Functional data	Fluid Temp Range (water)	Please Refer to Manufacturer's Valve Specifications
Mounting Position		configuration specific (X10-X35)
Applicable valve size		10" [250]
Materials		
Hardware		zinc plated steel
Spindle		stainless steel
Frame, plate, base		stainless steel
Coupling		stainless steel
Suitable actuators	Non-Spring	SY5

For close-off pressure reference Select Pro or retrofit technical documentation.

Product features

Default/Configuration	The actuator is sold separately from the linkage. This allows users to select the specified actuator with the desired control signal. Since the linkage utilises standard SY actuators, they can be purchased at any time and mounted in the field.
Application	The UFLK retrofit kit is designed to easily attach to the valve mounting pad on select competitor valves utilizing Belimo SY industrial series actuators. This kit will help to restore service without removal of the valve, saving down time. The UFLK retrofit kits are available in various configurations for use with both 2-way and 3-way valves where applicable.
Operation	The UFLK and mounted actuator(s) are capable of rotating 90° in both CW and CCW directions. This allows the disc to fully open or close. When directional needs vary, the actuator's directional switch can be flipped to change the rotation. The SY/PR is NEMA 4X rated and can be used outdoors.

Dimensions
